KABWE MUNICIPAL COUNCIL JANUARY - AUGUST 2024 NEWSLETTER

Constituency Development Fund

Success Stories for Kabwe District

Introduction

The Constituency Development Fund (CDF) has been a catalyst for positive change in Kabwe District, empowering local initiatives and addressing critical needs. From constructing modern infrastructure to enhancing public services, CDF has touched every corner of our district. Whether it's the creation of market shelters, the establishment of sanitation facilities, or the provision of loans and grants to uplift the most vulnerable, each project tells a story of progress and resilience. These success stories are a testament to what can be achieved when communities come together with the support of CDF, driving sustainable development and improving lives.

Health Sector

Health Care Improvement

CDFs in Kabwe District have facilitated the construction of health facilities. These initiatives by the community through the Ward Development committees (WDCs) have enhanced health care access and quality leading to better health outcomes in the communities. The table is a summary of some of the projects completed under the health sector.

S/N	Project Description	Ward	Constituency	Amount (ZMW)	Year
1	Constructed Nakoli Maternity Annex	Nakoli	Kabwe Central	485,648	2022
2	Completed Chowa Clinic Maternity Wing	Njanji	Kabwe Central	68,966	2022
3	Renovated OPD Roof At Mahatma Ghandi Clinic	Kalonga	Kabwe Central	131,884	2022
4	Completed Mothers' Shelter At Pollen Clinic	Kalonga	Kabwe Central	80,155	2022
5	Constructed Bwacha Maternity Annex	Bwacha	Bwacha	588,695	2022

Nakoli Clinic

In the heart of Nakoli ward in Kabwe Central Constituency, the people of Kabwe had long faced significant challenges in maternal and infant health. Women had to travel to some nearest Health post to access health care and most of these health posts were overcrowded and under resourced.

Recognizing this critical need, the ward Development Committee embarked on consulting their community to prioritize projects to be implemented under the CDF. The people of Nakoli identified the maternity wing as of prime importance to address maternal health care

Nakoli Clinic Maternity Annex

The maternity ward offers a full range of services, from prenatal checkups to postnatal care. It also provides education on family planning, nutrition and newborn care, empowering women and men with knowledge and thereby improving infant health outcomes in Kabwe Central.

Pollen Clinic Mothers Shelter

Pollen Clinic, Mothers Shelter-Kalonga

Young adolescents with early pregnancies who in the past would shy away now no longer fear childbirth_instead they view the new facility as a safe haven, welcoming place to bring new life into the world.

The CDF stands as a testament to the community members in Kabwe, to what can be achieved when the Local Authority come together with communities through the ward development committee with a common goal.

The success of the newly constructed Health facilities extends further to other sectors in Education, in both Kabwe Central Constituency and Bwacha Constituency. The benefits of CDF

to the communities has extended to a number of communities benefiting from a number of CBB blocks being built.

Transforming Education

The Constituency Development Fund (CDF) has played a transformative role in the education sector. The CDF has funded the construction and renovation of infrastructure such as classroom and ablution blocks, science laboratories and procuring of desks providing students with a conducive learning environment. Schools that previously operated under dilapidated conditions now have modern facilities, which have significantly improved the quality of education. CDF has further equipped schools providing scholarships to community members to acquire a skill on hands on training in the various institutions that are affiliated to the Technical Vocational Training (TEVETA) thereby creating opportunities for the youth.

1x3 Classroom Block constructed at Katuntulu Primary School

Located in the rural area of Kabwe district, Katuntulu primary school has been a beacon of hope for many young minds despite facing numerous challenges. The lack of adequate infrastructure was one of the major hurdles that impeded the quality of education. For years, students were forced to learn in overcrowded classrooms that were not conducive for effective learning.

However, thanks to the recent construction of a new classroom block under the CDF, the school has undergone a remarkable transformation. The new facility has provided a safe and comfortable learning environment, allowing students to focus better on their studies. The spacious classrooms have also reduced overcrowding and the desks procured will ensure that every child has a desk and enough space to learn effectively.

From Floors to brighter Futures

In response to His Excellency, the President of Zambia Mr. Hakainde Hichilema's pronouncement that no child should sit on the floor, our district took swift action. Through the Constituency Development Fund (CDF), about 10,436 desks were procured, transforming classrooms across the district. These desks have done more than just lift pupils off the ground; they've elevated their hopes, ambitions, and potential.

New Desks at Bwacha Secondary School 1

Handing over of Desks at Bwacha Secondary school

The transformation of these schools, through the construction of new classroom blocks, modern sanitation facilities and the procurement of desks under CDF is a testament to the power of community driven draft, thereby setting a foundation for a bright future for the children of these wards.

Commerce and Trade

Kabwe district through CDF has witnessed the construction of modern market shelters that not only provide a secure and dignified space for traders but also boost local commerce. Alongside this, modern water and sanitation facilities have been constructed, ensuring a healthier environment for all. These developments are more than just infrastructure; they represent a commitment to uplifting the living standards of the community creating a foundation for sustained growth and prosperity.

4	Completion of Kawama market ablution block	Bwacha	190,000.00	2023
5	Rehabilitation Of Njanji Market	Kabwe Central	459,000.00	2023
6	Construction of ablution block at Kasanda Market	Kabwe Central	293,190.14	2023

Rehabilitation of Njanji Market

The community in Njanji ward have been actively engaging in trade. Hence, they wanted a market to be constructed to house them and their businesses, realizing how important markets are for economic growth. The rehabilitation of its local market, now equipped with a state-of-the-art sanitation facility has now set a new standard for public health for the vendors, customers and the general public. This project has enhanced the quality of life for the community of Njanji ward, ensuring that that the market serves as a safe, clean, and thriving center of economic activity for years to come.

Security/Justice

The need for accessible justice and robust security has long been a pressing concern in the high density areas of the district. Through the Constituency Development Fund (CDF) these critical issues have been addressed significantly improving the delivery of justice and public safety in the district. These developments have not only enhanced the quality of life for residents but have also reinforced the community's trust in

Construction of a Local Court in Luansanse ward/ Rehabilitation of Bwacha Police Station

The people of Luansanse ward were delighted to be part of the newly built local court in their area. Mr Kasonka a local welder expressed gratitude for the new structure developed as more individuals will be able to access legal resources and dispute resolution. In a similar manner, the people of Bwacha ward were delighted that security in Bwacha will be enhanced by the newly constructed police post in the area. The community was delighted that with the police posts situated within

From Back Yard Flocks To Business Boom: A Successful Of Ndaye Multipurpose Cooperative

Ndaye Multipurpose Cooperative Group, is a collective of resilient women which has

transformed their backyard space into a chicken run located in Highridge within Katondo ward of Kabwe central constituency, proving that unity and perseverance can overcome even in the most daunting challenges.

It all began with a group of women in Katondo who got tired of economic constraints that bound them and forced them to form up a cooperative in 2024 with the amount of K30 000 which was given to them as a loan under (CDF). This cooperative developed a shared passion for poultry and a desire for financial independence.

From Stitches To Success: A Success Story Of Royal Crown Cooperative

A vibrant enterprise has woven together the dreams of a community through the art of tailoring which was founded in 2022 by a group of skilled but underemployed tailors which began with a humble aspiration. This group accessed a loan of K180 000 to procure all the machinery and materials to

begin with. This cooperative has members with abundance of talent determination and unity. Their initial focus was on producing high quality affordable clothing for the local market, so the word about the cooperative went viral about this exceptional craftsmanship's and it spread rapidly soon then orders began pouring in seeking uniforms and corporate wear. This expanded the work force in the group increasing the demand for labor, which now compelled the group to open a window of inclusiveness ranging from youths, women and widows. This cooperative story is merely about financial growth which is a good testimony to the power of collective efforts and social impact, it also remains a steadfast in its mission to create sustainable livelihood, empower communities and celebrate the artistry of Zambian fashion on the global stage.

*From Scratch to Success: A Successful
Story Of Women Of Charity*

What began as a modest endeavor by a group of women seven women and one man sharing their love for poultry has blossomed

into a women of charity cooperative society club thriving enterprise empowering the community. This group started in 2024 when a group of women and a man facing challenges in regards to accessing basic needs, applied for a (CDF) Loan so that they could address some of the challenges that seemed catastrophic to them. However, when the loan was approved it was a game changer to member's livelihood and a sign of hope to youth, women and other aspiring cooperatives. Furthermore, this group pooled their resources to raise their chickens through poultry business with a minimum capital amounting to K20,000 to begin with a handful of birds tending to them in a retiled chicken ran.

The Women Of Charity society group has fostered a strong sense of community ,by sharing knowledge and skills, supporting each other through challenges which has made them shine in the their ward as role models who has not left anyone behind but also have incorporated youths, and women to buttress manpower through unity hard work and perseverance .This group has also proven that even in the face of poverty women can be catalysts for positive change .A successful story for charity women of hope is a testimony to the power of collective action and resilience of the human spirit.

A Successful Story Of A Cooperative With Persons With Disabilities (PWD's)

A group of Persons With Disabilities (PWD) located in Katondo Ward of Kabwe central constituency, came up with a collective idea to form a cooperative called, Disability is not inability in 2023 with a startup capital amounting to K40,000,00. A (CDF) grant. This cooperative has changed the landscape of peanut butter production, one jar at a time. This vibrant group of disabled people, come up with a meaningful and envisioned a workplace that celebrated their unique strength and abilities, offering not just employment but a sense of purpose in the community.

The real success story lies in the impact this peanut has on its members by fostering inclusive and supportive environment empowering individuals to develop new skills and gain a valuable experience which reflects a beacon of hope, proving that disability is not a barrier to success.

To extrapolate the discourse of this story, the cooperative success doesn't end here. This group has become an inspiring role models for other cooperatives by advocating for inclusive workplace, additional capital and government's support towards fostering a sense of empowerment within the disabled community, as proven in the photo above, that indeed disability is not inability.

From Pond To Profit: A Successful Story For A Cooperative That Ventured In Fish Farming

The rise of a cooperative called sweet waters based in Luansanse ward located in the heart of Kabwe Central constituency is a shining example of how collective efforts can transform lives. Initially it was formed support their families. However, this cooperative is also conscious about practicing environmental sustainability which relate to SDG number 12 Life below water for the cause of adapting to eco-friendly awareness and observe environmental responsibility cooperative to enhance security through involving more vibrant youths and men to man the fish pond at night. However these hurdles made this cooperative become more resilient and adaptable .The cooperatives vision is to expand it's operation by

by a group of 12 individuals which got a(CDF) loan of K100,000 in July 2024 as a start up Capital with a shared passion for fish farming. The cooperative has grown to encompass youth's women and men as this is evidently seen in the improved livelihoods of it's members through increased income that members access to

Furthermore, the cooperative's journey has not been without challenges such, chasing away predators that eat fingerlings and stopping trespassers. However, this compelled the

exploring new markets and supporting other aspiring fish farmers through sharing of knowledge and experience so that great contribution to zamias Aquaculture sector is attained.

Breaking Barriers Through Village Banking

A Successful Story Of Litumezi Womens Club

In Katondo ward of Kabwe Central Constituency, a story of resilience unity and economic empowerment is unfolding were women who formed a cooperative club in 2024 using (CDF) loan amounting to K30,000 as startup capital is changing lives. This cooperative club is called Litumezi established a village banking cooperative with small initial contributions from each member which has pooled resources to create a revolving fund that has enabled these women to invest in other income generating activities such as ordering and selling of sausage to the community. This impact has been profound because this has grown their income and improved their livelihoods henceforth this thriving business has spread a word of inspiration in the community living every youth women and widows with a desire for success.

Women's Club which has transformed their own lives including the lives of youths and widows through the power of village banking. Basically women in Zambia have been facing significant challenges in accessing financial income and lack of collateral which handers economic growth. However, the women of Litumezi Women's Group have refused to be confined to such constraints. Driven by a shared vision of prosperity, this group has
