BCM/01/09/2024 OPENNING REMARKS

The meeting was called to order at 10:00 hours by the Social Economic Planner Ms. Mulenga Nangunzambo, who welcomed all participants and thanked them for their presence. An opening prayer was offered by Ms. Simushi, Vice Chairperson for Kalonga Ward.

The Socio Economic Planner explained to the house that the meeting was facilitated by the Council and financially supported by the Local Impact Governance Project, a consistent and reliable partner of the Council. She then invited the Acting Director of Finance to present the objectives of the meeting, particularly to engage the Ward Development Committees in the budget consultation process.

National Support

Ms. Sante informed participants that the Council received ZMW 65,140,728 from national support programs by September 2024 against the planned ZMW 140,728,669, resulting in a 46% performance rate. She explained that the Constituency Development Fund had the highest budget allocation of ZMW 61,271,284 and secondly Equalization Fund with the total amount of ZMW 23,857,381. She also informed the house that a total amount of ZMW 783,525 was received under the Cash for Work program. Matters Arising from the Presentation

The participants expressed concern over the Council's failure to collect the expected revenue, noting that the Council could leverage Ward Development Committees (WDCs) to assist in this effort. They emphasized that WDCs possess a strong understanding of the local context and could play a crucial role in identifying viable sources of revenue.

Additionally, concerns were raised regarding the lack of communication from the Council to WDCs when enforcement actions were undertaken against non-compliant business owners. It was further observed that some business owners appeared to be receiving advance notice of enforcement activities, as they would close their premises before Council officials arrived, only to reopen once enforcement teams had left.

In response, the Acting Director of Finance explained that the Council had initiated efforts to engage WDCs in revenue collection. She noted that WDC members were trained in resource mobilization and revenue collection with support from the Local Impact and Governance Project. As part of this initiative, WDCs were also tasked with identifying potential revenue sources within their respective wards that the Local Authority could explore. However, the full implementation of this activity was hindered by the expiry of the WDCs' tenure.

She assured the participants that the Council remains committed to implementing this program with the newly constituted WDCs, who will undergo capacity-building to enable them to effectively support revenue collection initiatives.

It was noted that many WDCs lack adequate motivation, transport, and stationery. In response, the District Planning Officer informed members that under the CDF administrative component, Local Authorities are mandated to support WDCs with resources. She assured the meeting that stationery will be allocated to each Ward Development Committee to enhance their operations.

ii. Lack of Motivation and Resources for WDCs

WDCs raised concerns over the numerous requirements for loan applications, such as the need to obtain certifications from PACRA or the Registrar of Societies. The District Planning Officer acknowledged the concerns but emphasized that these requirements are essential for ensuring accountability and legal compliance in the management of public funds.

i. Too Many Requirements in CDF Loan Empowerment application

Participants highlighted a number of challenges related to CDF access and implementation as follows:

Matters Arising from the Presentation

Bwacha Constituency allocated more funds toward procurement of earth-moving equipment and water and sanitation projects and that Kabwe Central Constituency allocated a larger portion of funds to education and health-related projects, but also dedicated resources to earth-moving equipment.

The DPO explained that in Bwacha Constituency, 18 community projects were approved under the 2024 CDF whereas in Kabwe Central Constituency, approved 10 community projects. The District Planning Officer further explained that:

c) Community Projects

A total of 69 applicants from Kabwe Central Constituency and 74 applicants from Bwacha Constituency were approved under the CDF Grant Empowerment Fund. It was noted that the majority of these applicants had subscribed to agriculture-related projects.
