BCM/01/09/2024 OPENNING REMARKS

The meeting was called to order at 10:00 hours by the Social Economic Planner Ms. Mulenga Nangunzyambo, who welcomed all participants and thanked them for their presence. An opening prayer was offered by Ms. Simushi, Vice Chairperson for Kalonga Ward.

The Socio Economic Planner explained to the house that the meeting was facilitated by the Council and financially supported by the Local Impact Governance Project, a consistent and reliable partner of the Council. She then invited the Acting Director of Finance to present the objectives of the meeting, particularly to engage the Ward Development Committees in the budget consultation process.

National Support

Ms. Sante informed participants that the Council received ZMW 65,140,728 from national support programs by September 2024 against the planned ZMW 140,728,669, resulting in a 46% performance rate. She explained that the Constituency Development Fund had the highest budget allocation of ZMW 61,271,284 and secondly Equalization Fund with the total amount of ZMW 23,857,381. She also informed the house that a total amount of ZMW 783,525 was received under the Cash for Work program. The budget performance regarding the national support programs is summarized in the table below;

Matters Arising from the Presentation

The participants expressed concern over the Council's failure to collect the expected revenue, noting that the Council could leverage Ward Development Committees (WDCs) to assist in this effort. They emphasized that WDCs possess a strong understanding of the local context and could play a crucial role in identifying viable sources of revenue.

Additionally, concerns were raised regarding the lack of communication from the Council to WDCs when enforcement actions were undertaken against non-compliant business owners. It was further observed that some business owners appeared to be receiving advance notice of enforcement activities, as they would close their premises before Council officials arrived, only to reopen once enforcement teams had left.

In response, the Acting Director of Finance explained that the Council had initiated efforts to engage WDCs in revenue collection. She noted that WDC members were trained in resource mobilization and revenue collection with support from the Local Impact and Governance Project. As part of this initiative, WDCs were also tasked with identifying potential revenue sources within their respective wards that the Local Authority could explore. However, the full implementation of this activity was hindered by the expiry of the WDCs' tenure.

She assured the participants that the Council remains committed to implementing this program with the newly constituted WDCs, who will undergo capacity-building to enable them to effectively support revenue collection initiatives.

The Acting Director of Finance further reassured the House that the Council is dedicated to meeting its revenue collection targets. A range of measures have been introduced to promote transparency and accountability, including the strengthening of the revenue collection task force.

BCM/03/09/2024 PRESENTATION OF BY DISTRICT PLANNING OFFICER ON THE 2024 CONSTITUENCY DEVELOPMENT PERFORMANCE

The District Planning Officer Ms. Leontina B. Chikwanda gave a detailed presentation on the status of implementation of the 2024 Constituency Development Fund (CDF) in both Kabwe Central and Bwacha Constituencies. The report covered Skills Development and Secondary Boarding Bursary Support, Loans, Grants and Community Projects. i

a) Skills Development and Secondary Boarding Bursary Support

The DPO highlighted that the Council facilitated the approval of 1226 students in the district with a total number of 533 female and 693 male under the Skills Development Bursary Support. She further highlighted that out of the 1226 students supported, 632 were under Bwacha Constituency while 594 were under Kabwe Central Constituency. She further explained that 53 pupils were approved under the Secondary Boarding School Bursary support for both Bwacha and Kabwe Central Constituencies of which 10 were under Bwacha and 43 under Kabwe Central Constituencies respectively.

b) CDF Empowerment

i. Loan

A total of 29 loan applicants were approved under the 2024 CDF for Kabwe Central Constituency. For Bwacha Constituency, 39 applicants were approved in the first batch and 16 applicants in the second batch. The District Planning Officer also reported that Financial Literacy Training was facilitated for all loan beneficiaries to enhance their capacity in financial management and sustainability of funded projects.

ii. Grant Empowerment Fund

A total of 69 applicants from Kabwe Central Constituency and 74 applicants from Bwacha Constituency were approved under the CDF Grant Empowerment Fund. It was noted that the majority of these applicants had subscribed to agriculture-related projects.

c) Community Projects

The DPO explained that in Bwacha Constituency, 18 community projects were approved under the 2024 CDF whereas In Kabwe Central Constituency, approved 10 community projects. The District Planning Officer further explained that:

Bwacha Constituency allocated more funds toward procurement of earth-moving equipment and water and sanitation projects and that Kabwe Central Constituency allocated a larger portion of funds to education and health-related projects, but also dedicated resources to earth-moving equipment.

Matters Arising from the Presentation

Participants highlighted a number of challenges related to CDF access and implementation as follows:

i. Too Many Requirements in CDF Loan Empowerment application process

WDCs raised concerns over the numerous requirements for loan applications, such as the need to obtain certifications from PACRA or the Registrar of Societies. The District Planning Officer acknowledged the concerns but emphasized that these requirements are essential for ensuring accountability and legal compliance in the management of public funds.

ii. Lack of Motivation and Resources for WDCs

It was noted that many WDCs lack adequate motivation, transport, and stationery. In response, the District Planning Officer informed members that under the CDF administrative component, Local Authorities are mandated to support WDCs with resources. She assured the meeting that stationery will be allocated to each Ward Development Committee to enhance their operations.

iii. Limited Participation by Ex-Officios

Concerns were raised about the low attendance of ex-officio members at WDC meetings. The District Planning Officer assured the committee that the Council would engage relevant institutions to ensure attendance. She also urged WDC Chairpersons to continue notifying ex-officio members directly, since their contact details had already been shared with the committees.

iv. Poor Workmanship in Ngungu

The WDC for Ngungu Ward expressed concern over the poor workmanship by the contractor engaged for drainage works. In response, the Council Engineer clarified that the funds allocated were insufficient for concrete drainages, which limited the contractor to the specific scope outlined in the contract.

v. Lack of Contractor Introduction to WDCs

Some WDCs noted that contractors were not being introduced to them, which hampers effective monitoring. The District Planning Officer acknowledged this concern and committed to improving coordination between contractors, the Council, and WDCs moving forward.

BCM/04/09/2024 COMMUNITY PRIORITISATION OF DEVELOPMENT NEEDS

The Socio-Economic Planner explained to the members that they needed to be in groups according to the wards to discuss priority projects that needed to be presented to the council for implementation using the locally generated revenue. The WDC formed the required groups and discussed at length on their priority projects.

The following submissions were received from the Ward Development on the priority areas that the Local Authority should implement;

BCM/04/09/2024 CHALLENGES PRESENTED BY THE WDCS

i. DELAYED DISBURMENT OF THE CONSTITUENCY DEVELOPMENT FUND (CDF)

Frequent delays in the release affect project implementation timelines and community trust, for example the chairperson for Justin Kabwe ward lamented on the fact that they completed their project proposal on time but actual funds were disbursed late resulting in the untimely completion of projects.

ii. INADQUATE COMMUNITY INVOLVEMENT

There is minimal engagement with WDC for oversight making it difficult to track progress of flag problems early. She stated that they receive regular updates on projects being implemented and sometimes only find out after completion,

iii. UNCLEAR BUDGET CEILINGS FOR WARDS.

The treasurer for Chinyama ward expressed concern on the WDC not being informed about the actual budget ceilings or guidelines for the project making it difficult to effectively monitor its implementation.

iv. LOW CAPACITY IN BUDGET INTERPRETATION

The WDC chairperson for High ridge ward expressed concern that WDC members sometimes struggle to fully understand or respond to draft budgets due to limited training in budgeting and planning. He further stated that most of them are willing to participate but they need orientation on how to read and interpret the budget.

WDCs expressed concern on the engineering department not liaising with the WDC on the names of the contractor and the projects being worked on, in the various wards, thereby isolating community involvement

v. LACK OF TRANSPARENCY IN PROJECT SELECTION AND TENDERING.

The WDCs felt sidelined in the procurement process leading to the hiring of contractors who lack community approval or understanding of local needs, An example was given of kamushamga market in Kalonga ward which was abandoned by a contractor for a long time without completion.

BCM/05/09/2024 RESOLUTIONS

The Local Authority to consolidate all ward submissions into the 2025 budget

- They proposed that :
- Advocate for the establishment of a clear disbursement schedule from relevant authorities
- Conduct regular community sensitization meetings to educate people on the importance of participation
- Advocate for training sessions through encouraging Public-Private Partnership (PPPs)
- Engage dialogue with planning and finance departments to gain clarity and promote transparency
- Enhancing monitoring and evaluation frameworks by developing a simple monitoring tool
- Train WDC members in basic project management and evaluation skills
- Establishing WDC funds through the WDC sub committee where the 5% can be collected from the revenue collected by the respective wards for administrative purposes

BCM/06 /09/2024 ANY OTHER BUSINESS

WDCS asked if there could be for some form of remuneration for the work they are doing despite it being voluntary. They proposed that even bicycles could be given to them for ease of movement in executing their work as distances covered are long

BCM/07/09/2024 CLOSING REMARKS

The District Planning Officer thanked all the members present for their active participation and valuable contributions to the budget planning process, It was noted that whilst challenges such as delayed undelimited community engagement and capacity gaps, the council remains committed in addressing these issues through collected effort, through continued engagement with stake holders.

Members were encouraged to maintain open communication. The meeting was officially closed at 16:30 hours with a prayer from Justin Kabwe Ward Chairpersons Mr J Tembo.
