

**MINUTES OF THE MEETING OF COUNCIL MANAGEMENT AND
STAKEHOLDERS TO PROVIDE FEEDBACK ON THE 2025 APPROVED BUDGET
HELD ON WEDNESDAY 30th APRIL, 2025 IN THE COUNCIL CHAMBER AT 10.40
HOURS.**

A) ATTENDANCE

The meeting was attended by various district stakeholders including Chairpersons, Secretaries and Treasurers of the Ward Development Committees, Civil Society Organizations, Government Line Ministries, Media Houses, among others. Also present were officers from the Council as shown below.

Officers Present

Jovax Ngoma	Town Clerk, in the Chair
Mubanga G.Kabwe	Socio Economic Planner
Chipoma B. Mukupa	Environmental Planner
Bright Chama	Chief Accountant (Expenditure)
Steven Chola	Chief Accountant (Revenue)
Lazarous Maseko	Planning (Intern)
Natasha Sunkutu	Planning (Intern)
Norah Kabwe	Cash for Work Data Entry Clerk
Sonya Mukwato	Public Relations Officer
Esther Lungu	Planning Inspector

Refer to the attached attendance register of the stakeholders and officers who were in attendance.

The meeting was also used to provide feedback on consolidated roads for grading in each ward using CDF, obtain feedback on Cash For Work from WDCs, discuss the formation of WDC Subcommittees, and CDF guidelines, including operationalization of WDCs and their roles in revenue collection.

SBF MC/01/25

AGENDA

The proposed agenda was as follows: -

1. Opening Prayer
2. Introductions
3. Apologies
4. Adoption of the agenda
5. Opening Remarks
6. Feedback on Council's 2025 approved budget to the WDCs

7. Feedback on consolidated roads for grading in each ward using CDF
8. Cash for Work Feedback from WDCs
9. Formation of WDC Subcommittees
10. CDF guidelines
 - i. Skill Development bursaries
 - ii. Grants
 - iii. Community Projects
11. Operationalization of WDCs and their roles in revenue collection
12. Closing remarks
13. Closing prayer

SBF MC/01/25

ADOPTION OF THE AGENDA

It was resolved that the agenda of the meeting between Council Management and the stakeholders be adopted as given above.

OPENING PRAYER

The meeting started at 10.40 hours, moderated by Mr. Chipoma B. Mukupa, the Environmental Planner.

Prior to the commencement of the meeting, a prayer was offered by Mr. World Nalipapa, the Ward Development Committee Chairperson for Chirwa Ward.

INTRODUCTIONS

All the members present introduced themselves.

SBF MC/01/25

OPENING REMARKS

Mr. Chipoma welcomed all the members present and thanked them for having made it to the meeting. He indicated that the Town Clerk would join the meeting later on to give his remarks. Mr. Chipoma said the meeting was among other things, meant to provide feedback to the stakeholders on the Council's 2025 approved budget, and to emphasize the role of the WDCs in the monitoring of CDF community projects, loans and grants, working with the Council officers. He encouraged everyone to participate fully, and invited Mr. Chama to make his presentation, to provide feedback on the Council's approved 2025 budget.

SBF MC/02/25

FEEDBACK ON COUNCIL'S 2025 APPROVED BUDGET

Mr. Chama presented the Council's 2025 approved budget, highlighting the projected estimates of revenue and expenditure of K181.1 million, representing a percentage increase of 28.7% from

the 2024 budget, which stood at K140.7 million, due to increased CDF allocation for Kabwe Central and Bwacha Constituencies, from K61.3 million in 2024 to 72.1 million, and the inclusion of Cash For Work funds of K19.2 million, Zambia Devolution Support Programme grant of K8.3 million, as well as the increase in grants for devolved Ministries from K7.2 to K8.8 million. He took the meeting through all the sixteen (16) planned programmes by each Department of the Council. After his presentation, members wanted to know:

1. What plans the Council had regarding the management of the dumpsite:

A response was provided that the Council will continue encouraging residents in Kabwe to engage in waste reuse and recycling in order to reduce the volume of waste reaching the dumpsite. This would make management of the dumpsite easier.

2. What measures the Council is putting in place for companies that are into the manufacturing of drinks packaged in disposable plastic bottles:

A response was provided that the Council would seek all possible means of engaging the companies to see how they can support waste management in the district, and to particularly be held responsible for waste generated through their products. This would reduce the burden on Council.

3. What the procedure for issuance of licenses for bars/taverns as far as availability of toilets at such premises was concerned. This was arising from having noted that many bars and taverns were given licenses yet they had no toilets:

A response was given that all bars/taverns must have toilets before issuance of licenses, and the Council endeavored to ensure that. However, if such cases are there, they can be reported for the Council to investigate how licenses were issued.

4. Why the Council often delays in responding to community emergencies requiring CDF funding:

A response was given that the delays are largely due to the procurement process which is done using the Electronic Government (e-GP) system. The system treats all procurements the same, emergency or not, hence the delays.

SBF MC/03/25

REMARKS BY HIS WORSHIP THE MAYOR

At 11.14 hours, His Worship the Mayor, Mr. Patrick Chishala joined the meeting to greet the participants and encourage them to actively participate. The Mayor made remarks on the following:

1. 4.2 Km roads grading works in each ward through CDF

The Mayor explained that road grading works has stalled due to the wearing out of blades on the graders. He indicated that the blades were procured as at the time of the meeting, adding that grading works had actually resumed. The Mayor requested the Director of Engineering Services, represented by Mr. Richard Miyanze to share the works programme that had been drawn with the WDC members.

The Mayor also hinted that some WDC members were in the habit of spreading false information regarding the grading works, and other developmental activities in the district. He emphasized on the importance for verifying information with the Council before the disseminating to the public.

2. WDC incentives

Asked about whether or not the WDCs would be receiving some incentives for their work, which now was increasingly expanding, the Mayor empathized with the WDCs, took note of the matter and indicated that that something may be done soon by Government.

SBF MC/04/25

PRESENTATION ON OPERATIONALIZATION OF WDCs THEIR ROLES IN REVENUE COLLECTION

Mr. Chola made his presentation on operationalization of WDCs their roles in revenue collection. He emphasized that the WDCs had a critical role to play, of identifying possible sources of income in their wards, besides participating in actual collection, of course mandated and supported by the Council. He added that the revenue collected is what is actually used to facilitate some developmental activities in their wards. Mr. Chola also indicated the need for each WDC to open an account to manage funds, including the 5% of Council's locally generated revenue, which is supposed to be shared among all the wards for developmental activities in their wards.

After the presentation, members wanted to know:

1. How the WDCs are expected to safely keep the receipt books once engaged in revenue collection, since they have no offices:

A response was given that it was strictly a responsibility of the assigned WDC to ensure the safety of the receipt book, under the circumstances. It was added that if anything happens to the receipt book, the WDC would individually be held accountable.

2. Whether the WDCs are authorized to force the public to comply:

A response was given that the WDCs can bring to the attention of the Council residents proving to be difficult in terms of making the due payments, for appropriate action to be taken. It further indicated that WDCs will be given IDs for easy identification by the public.

3. Areas where Council is supposed to get levies and how to identify those areas:

A response was given that guidance will be provided on which areas and levies to collect.

4. How to handle those who cannot pay everything (taxes) at once:

Guidance was given that payers may be allowed to make payments in installments.

SBF MC/05/25

REMARKS BY THE TOWN CLERK

While the presentation on operationalization of WDCs and their roles in revenue collection was being made, the Town Clerk, Mr. Jovax Ngoma came through, and was given space to give his remarks, and to comment on some of the issues raised in the presentation.

The Town Clerk indicated that in the same manner that WDCs are engaged at the time of Council budget preparation, it was important that feedback is provided after approval of the budget, hence the convening of such a meeting. Mr. Ngoma reiterated the

importance of providing feedback by the Council, adding that doing so helps to prevent and or address operational problems and risks. The Town Clerk tasked the officers to ensure that all necessary feedback is provided, including feedback on approved CDF grants, community projects, loans and bursaries.

The Town Clerk also stressed the need for involvement of WDCs in the monitoring of CDF, adding that it was one of the key issues to be discussed in the meeting. He said there was need for the WDCs to have full information for example on the locations of grants and loans beneficiaries, and community projects, for easy of monitoring.

On the roles of WDCs in revenue collection, the Town Clerk commented that adequate identification support would be provided to the WDCs who will be engaged in revenue collection. He also alluded that payers of levies who cannot manage to make full payments at once may be allowed to pay in installments, and generally reinforced the responses provided to the questions raised after the presentation on operationalization of WDCs and their roles in revenue collection.

To conclude his remarks, Mr. Ngoma said that WDC subcommittees and project committees must be made functional to support the monitoring activities, and advised that such committees should be formed and operationalized in all wards.

SBF MC/06/25

FEEDBACK ON CONSOLIDATED ROADS FOR GRADING IN EACH WARD USING CDF

Mr. Richard Miyanze from Engineering Services Department presented the schedule of roads that each ward had identified to be worked, which must add upto 4.2 Km per ward using CDF, in both Kabwe Central and Bwacha Constituencies. Mr. Miyanze shared the schedule so that the WDCs can know on which day the grading would be done in their wards.

SBF MC/07/25

CASH FOR WORK FEEDBACK FROM WDCs

Each WDC chairperson was requested to high the works that has been done thus far. However, none of them could present, for the reason that they were not informed to prepare the reports before the meeting.

It was then agreed that all reports must be submitted by 8th May, 2025.

FORMATION OF WDC SUBCOMMITTEES

Mr. Chipoma took the WDCs through their roles as given in the guidelines, and in particular, the roles subcommittees.

Mr. Chipoma indicated that during their orientation, the WDCs were advised to form subcommittees, of which as at the time of the meeting, only few WDCs had managed to form. He indicated that key subcommittees to be formed as outlined in the WDC guidelines include Finance and Planning, Infrastructure Development and Socio-Economic Subcommittees.

Mr. Chipoma also guided on the membership of the subcommittees. In terms of their roles, he emphasized on their involvement in the monitoring of CDF implementation for improved performance of the district as far as CDF utilization is concerned, in order to see its intended impact in changing the lives of the people. He added that once the subcommittees are formed, the Council would identify the capacity gaps and provide necessary support required to undertake monitoring and evaluation of CDF implementation, including other developmental activities in the wards. After the presentation, members raised the following questions/concerns:

1. If the 5% from the locally generated revenue was to be shared equally among all the wards, in light of the WDC's role in revenue collection, and the fact that some wards would be collecting more than others:

A response was given that the sharing will be done equally among all the wards, irrespective of how much revenue a given ward had collected.

2. Whether the members of the subcommittees are supposed to be pick from each zone:

Guidance was given that the members to the subcommittees are to be picked from the main WDC.

3. Some members of the WDCs especially the nominated and ex officio members, were not attending meetings and or participating in activities.

Mr. Chipoma took note of the matter, and indicated that the Council would do everything possible to ensure that such members begin participating.

4. How many subcommittees can a member belong to:

Guidance was given that a member of the WDC may belong to a maximum of 2 subcommittees and as long as they do not hold key positions in both committees. Mr. Chipoma also mentioned that the WDC Chairperson may belong to any subcommittee but as an ex officio member, and cannot hold any key position in the subcommittee.

It was resolved that all subcommittees should be formed by 15th May, 2025.

SBF MC/09/25

CDF GUIDELINES

When it came to presentation on CDF guidelines, in the interest of time, and given that most WDCs were now familiar with the guidelines, Mr. Chipoma sought consensus that members only ask questions in areas of the guidelines where they needed clarification, instead of having a full presentation. Consensus was obtained. Mr. Chipoma added that all presentations would actually be shared for members to refer to, and were free to raise questions to the officers at any time. The following issues were raised by members during the meeting:

1. Why payments of tuition fees and meal allowances for students delay:

Mr. Chipoma acknowledged the matter, and indicated that sometimes delays are caused because the Council must physical conducts of students, following which some institutions delay to submit invoices. He indicated that once the subcommittees are operational, perhaps they can be helping to reach out to institutions in order to expedite the process.

2. Why contractors on CDF projects are still coming from outside the district:

It was indicated that all tendering for projects is now done on the Electronic Government (e-GP) system, where all local contractors are supposed to participate and compete, and further that the selection of successful contractors is system-

3. Some WDC leaders' failure to provide feedback to WDCs after engagements with the Council on CDF

Some members in the meeting bemoaned the lack of feedback by some of their leaders on engagements with the Council on CDF.

It was emphasized that leaders of the committee must always provide feed to the WDCs, which should in turn trickle down to the community members in each zone.

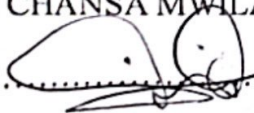

SBF MC/10/25

CLOSING REMARKS

In closing, the Mr. Chipoma thanked the WDCs for their valuable contributions and active participation throughout the meeting. He reminded the members that the deliberations in the meeting are vital for the effective implementation of developmental activities, and use of the Constituency Development Fund, to ensure that development reaches communities where it is most needed and further urged members to continue working with integrity to achieve the community goals.

THERE BEING NO OTHER BUSINESS TO TRANSACT, THE MEETING WAS DECLARED CLOSED AT 15:20 HOURS AND A CLOSING PRAYER WAS OFFERED BY MR THOMAS NDHLAMINI

Checked by: CHANSA MWILA, Director of Development Planning
